

Dear parent/carer,

Below are some suggested website links to support your child with some extra practise of their number skills:

www.topmarks.co.uk/maths-games/5-7-years

www.ictgames.com/resources.html

www.bbc.co.uk/bitesize/ks1/maths/

www.crickweb.co.uk/Key-Stage-1.html

www.iboard.co.uk/activities/subject/maths

Any of the activities linked to counting, ordering, place value and number sequences (KS1 – age 5-7 years) would be the best ones to practise outside of school, as calculations are taught as a particular progression.

Assessment is on-going within lessons and support is carefully managed to ensure that any areas for development are worked on. We will be creating intervention groups for children who may require further boosting within the next few weeks.

Many thanks for discussing your concerns with us so that we can continue to work together to ensure that your child is able to make good progress.

Yours sincerely

Miss Priestley & Miss Hardie
